Quote Number: 17587-112125-CB
RE: Pat Mooney / PMI-455 A

Dear Erik,

Thank you for the opportunity to provide you with this sales quote. We appreciate your interest in Mid Atlantic Machinery, Inc. and look forward to supporting your metal fabrication needs.

Enclosed, you'll find the pricing and specifications for the recommended equipment. Should you be interested in financing, a summary proposal is provided following the quote. If you are interested in additional finance options, please reach out to our office at (877) 888-MAMG. Please review the Terms and Conditions of Sale for key details regarding your purchase.

If you have any questions, need modifications, or would like to explore additional options, please don't hesitate to reach out. I'm happy to assist in any way to ensure you have the best solution for your business.

At Mid Atlantic Machinery, we're committed to providing high-quality equipment and exceptional service. We look forward to a continuing partnership with your company and helping you achieve your production goals.

Sincerely,

Chris Barsanti
CB/an

Proposal No. 17587-112125-CB

PMI-455 A-Type Automatic Upcut Saw

The PMI-455 A-Type is a fully automatic, high speed upcut saw. It is built to cut aluminum extrusions, small solid aluminum bars, and other non-ferrous materials to length. The machine comes standard with a 10 HP motor, so it can cut parts quickly and accurately. The material indexing system is comprised of a pneumatic gripper vise, servo motor, servo drive, and precision ball screw. All machine programming and diagnostics are accessed through the machine's HMI touchscreen control.

Machine Highlights:

- **Servo Controlled Material Indexing – 25" Stroke**
- **PLC Controlled and Monitored Operation**
- **10 HP Saw Motor**
- **Ability to Bundle Cut**

Machine Features:

Saw Blade Feed:

The saw blade feed is driven by a hydraulic cylinder for maximum stability of the saw head during the sawing operation. The fully hydraulic cutting rate control gives adjustable feed rate, so the proper feed can be set based on the material thickness. The stability of the hydraulic system allows the machine to cut heavy wall profiles and solid bars.

Upcut Saw Head Design:

The saw head is an upcut design, so it travels up through the workpiece. The saw blade enclosure is below the worktable. The blade is fully enclosed to limit blade exposure. A safety interlock is on the saw blade enclosure, so the machine will not operate with the door open.

10 HP Saw Motor:

The powerful 10 HP saw motor allows for maximum cutting force and chip removal. This additional power extends the life of the saw blade between regrinds.

Saw Blade Speed:

The saw blade speed is 3200 RPM.

PLC Control:

A PLC controls and monitors the operation of the machine.

The machine has two automatic modes.

- Single Length – The machine can be set to run one cut length in a program.
- Multi-Length Mode – The machine can be set to run multiple different cut lengths in a program.

The machine has a semi-automatic mode to cut remnants into useable parts. In this mode, the operator uses the shuttle vise as a stop.

The machine can store programs within the multi-length mode.

HMI Touch Screen:

The machine has a 7" HMI Touchscreen. It gives a visual of all the machine's functions, manual movements, diagnostics, parameters, and programming modes.

When programming a cut list, the operator enters in the required quantities, cut length(s), and incoming material length. The operator will enter a cut list, load material, and push the cycle start buttons. Then, the machine will automatically cut to the entered dimensions without operator intervention.

Material Index System:

The material index system consists of an AC servo motor and encoder, Programmable Servo Drive, Precision Ball Screw, and gripper vise. The gripper vise travels on hardened, precision linear rails.

The gripper vise has horizontal and vertical clamps. This clamping system enables the saw to handle irregularly shaped stock material without any additional fixtures. It also gives it the ability to bundle/stack cut multiple parts in a single saw stroke.

The stroke of the shuttle vise is 25". The machine will do multiple strokes to complete cuts over 25". The minimum cut length is 0.314 Inches; however, with modifications, the machine can handle shorter cut lengths. The trim cut length is programmable.

Clamping System:

The machine's clamping system is pneumatic. The pneumatic system allows for adjustable clamping pressure to prevent distortion of thin wall profiles, which gives the machine the ability to process a wide range of material thicknesses. The clamping pressure control is separate for the vertical and horizontal clamps.

The machine has horizontal and vertical clamps. Both the shuttle vise and fixed saw vise have vertical and horizontal clamping. The vertical clamps cover the entire cutting width capacity of the machine which allows for bundle / stack cutting. This also helps clamp irregularly shaped profiles without any modifications.

The stroke of the clamps can be set to the part size for more efficiency and faster cycle times.

Precise Saw Blade Lubrication: Micro-Drip Blade Lubrication System:

The saw blade lubrication is a precision metered system supplied via air to the cutting edge of the saw blade. The mist system sprays a small amount of cutting fluid onto the saw blade, so cut parts come off the machine near dry. This is much cleaner compared to a machine that uses a flood coolant system.

Method	Precision Drop
--------	----------------

Tank Capacity	1 L
---------------	-----

Machine Safety Enclosure:

The machine has two main safety enclosures. The larger safety enclosure covers the area with the shuttle vise and the smaller one covers the saw table area. Safety switches monitor both enclosures. If the enclosures are open, the machine will not operate.

Saw Blade Enclosure:

An enclosure in the basement of the machine houses the heavy-duty saw spindle. This enclosure has a safety switch, so it must remain closed while the machine is in operation. If this enclosure is open, the machine will not operate.

Technical Specifications:

Material Indexing Servo Motor	500w
Saw Motor	10 HP
Saw Blade Speed	3200 RPM
Saw Blade Diameter	18"
Stroke Length	25"
Saw Worktable Height	35.82"
Machine Dimensions	98.50" x 39.50" x 73" (L x W x H)
Machine Weight	3,080lbs

Cutting Capacity:

Round	5"
Square	4.72"
Rectangle	1.57" x 10.5"
Rectangle	4" x 8"
Rectangle	4.72" x 6"

Additional Standard items included with purchase of PMI-455 A-Type:

- 120T Saw Blade
- Operators Manual
- Tool Kit
- 13ft Infeed Roller Table

Additional Product Information Online:

Check out additional product information for this machine online at the Pat Mooney Saws website:

<https://www.patmooneysaws.com/product/pmi-455-a-type-auto/>

Pat Mooney Saws helps companies maximize sawing performance through innovation, application insight and dedicated technical support

Pricing:

PMI-455 A-Type	\$ 43,250
-----------------------	------------------

Machine Setup	\$ 2,950
----------------------	-----------------

- Installation
- Operation and Safety Training

PMI Cyclone Chip Collection System	\$ 13,250
---	------------------

- 5 HP Motor
- 7" Inlet
- 55 Gallon Collection Drum
- 1200 CFM

Saw Blades:

General Purpose:

Sawing Profiles/Tubes

120T D-Type Kanefusa Saw Blade	\$ 345
--------------------------------	--------

Sawing Heavy Wall Profiles/Small Solids

72T D-Type Kanefusa Saw Blade	\$ 323
-------------------------------	--------

High Performance:**Sawing Profiles / Small Solids / Heavy Wall Profiles**

72T 3DX Kanefusa Saw Blade

\$ 493

Terms and Conditions:**Machine Installation with Operation and Safety Training**

Customer will unload machines and roughly position and run all utilities to the area. PMI will work with Customer to final position and level the machine. *All material handling equipment will be provided by customer.* Typical installation is 1-1/2 days and a ½ of training.

Warranty:

12 Months on all parts, except wear parts such as saw blades. Response time will be 24 hours or less.

Spare Parts:

PMI maintains a stock of replacement parts in Addison, IL

Environment:

Since the machine does not utilize flood coolant, there is no disposal or spillage of coolant. The machine is friendly to the environment.

Safety:

As with any machine tool, care needs to be taken when the machine is in operation. The saw blade should always be changed when the machine is in lock out condition. Gloves should always be worn when changing the saw blade.

DELIVERY: To Be Determined at Time of Order
F.O.B.: Addison, IL
TERMS: 20% Deposit with Order, 70% Prior to Shipment, Net 20 Days
VALIDITY: 14 Days

Don't miss out on potential tax benefits in 2025

Businesses have significant reasons to acquire and install capital equipment before the end of 2025, so plan now to maximize these important benefits.

Key provisions

Section 179

- Deduction limit increased to \$2,500,000.
- Phase-out threshold increased to \$4,000,000.

Bonus depreciation

- Level is 100% for 2025.
- Bonus depreciation continues to apply to used and new equipment.
- Equipment investments exceeding \$6,500,000 are not eligible for any Section 179 deduction.

Standard depreciation

- First year MACRS depreciation applicable.

Speak to a qualified tax professional familiar with your specific business circumstances.

2025 Section 179 and bonus depreciation tax deduction example	
Cost of equipment	\$ 59,450
Section 179 deduction	\$ 59,450
Bonus depreciation deduction	\$ 0
1st year depreciation (assuming 5-year MACRS)	\$ 0
Total first year deduction	\$ 59,450
Cash savings on purchase: (assuming 21% C-Corp tax bracket)	\$ 12,485
Lowered cost of equipment:	\$ 46,966

Mid Atlantic Machinery, Inc.

TERMS AND CONDITIONS GOVERNING ALL QUOTATIONS AND ORDERS:

QUOTATIONS AND ORDER ACCEPTANCES:

(A) This quotation, or proposal, from Mid-Atlantic Machinery, Inc. (hereinafter referred to as "MAM") **does not constitute an offer but is an invitation to place an order. The terms of this proposal shall be accepted by the buyer ("Buyer") upon Buyer's issuance of a purchase order and/or down payment.** All orders are subject to written acceptance by MAM. If an order based upon this proposal is accepted by MAM, it is agreed that the order shall be subject to the terms and conditions (the "Terms") set forth hereinbelow. It is also understood that if the order placed is pursuant to a government contract, it shall also be subject to any conditions required by laws of the United States and mandatory terms of such government contract as are disclosed to MAM. No contract term or condition shall be amended, deleted or added without the express written consent of MAM, and MAM hereby gives notice of objection to any terms set forth in any other writing which are in addition to or different from the terms set forth in this quotation.

(B) Orders based on our quotations are continuous, outstanding, and made by a duly authorized party.

(C) Orders based on our quotation are subject to acceptance upon sale confirmation and/or acceptance by manufacturer(s) or supplier(s).

(D) This quotation and all drawings, specifications, materials, patterns and special purpose manufacturing aids which are supplied to you by MAM shall be kept in confidence and shall be listed and maintained in suitable condition at the expense of Buyer and are to be considered the property of MAM held on consignment by Buyer and to be insured while in Buyer's possession. Such articles and all copies thereof from any source shall be returned to MAM at any time upon request and shall not be used for any third parties without the express permission of MAM.

(E) Any clerical errors are subject to correction and must be brought to the attention of MAM as soon as suspected.

PRICING:

(A) All pricing is reflected in USD as standard. Prices in MAM's advertising materials and website are subject to change without notice. All specifications are subject to update, upgrade, and/or revision without notice.

(B) All sales are made subject to all state, county, city/local and federal use, sales and excise taxes and tariffs, the amount of which Buyer agrees to pay. Any such tax may be billed to the Buyer as part of the selling price or may be separately billed at any time by MAM, if MAM is required by any taxing authority to collect or pay such tax.

(C) Unless otherwise specified and agreed to by MAM in writing, prices are F.O.B. factory, at point of manufacture. Buyer is responsible and bears all risk of loss during transport once the machine(s) and/or other purchase(s) (the "Goods") leaves manufacturer. Buyer is responsible for all costs of transportation, including rigging, from the point of manufacture and is responsible for insurance on the Goods during transit. Buyer shall pay any additional charges for special packaging requested by Buyer.

PAYMENT TERMS:

(A) As stated on proposal. Subject to credit approval at time of acceptance of order unless otherwise stated in quotation. Any unpaid balance thereafter shall be subject to a service charge of up to 1 1/2% per month or the maximum allowed by law, whichever is less. There shall be no extension or change in the time for payment due to delays in installation and/or delays in operation of the equipment caused by damage, warranty service or warranty replacement of parts.

(B) Buyer shall remain liable for all orders, notwithstanding any request by Buyer to direct an invoice to a third party.

FORCE MAJEURE:

A party shall notify the other party hereto in writing within twenty-four (24) hours of the knowledge of a Force Majeure event, and neither party shall be considered to be in default of an accepted purchase order to the extent that its failure or delay in performance is actually caused by a Force Majeure. "Force Majeure" means acts of God or nature, acts or

declarations of civil or military authority (including government-ordered closures or lockdowns), fires, floods, epidemic, war, or like occurrences that are beyond the control and without the fault of either party, including but not limited to strikes or other labor troubles of port workers; however, strikes or other labor troubles involving a party, or its representatives shall not constitute Force Majeure. A party shall use commercially reasonable efforts to mitigate the effect of such Force Majeure and relief granted to the party experiencing Force Majeure shall be limited to an extension of the time of performance. If MAM experiences a Force Majeure event for more than ninety (90) days, Buyer shall have the right to terminate the accepted purchase order and is entitled to a refund of all monies paid to MAM subject to costs approved in advance by Buyer in writing.

MODIFICATION OR CANCELLATION OF ORDER:

(A) Purchase orders accepted by MAM may be cancelled only with MAM consent, except as set forth above for certain cases involving Force Majeure. In the event of such consent, you shall pay to MAM promptly upon receipt of invoice from it:

(1) Contract price for all products which shall have been completed prior to receipt of notice of cancellation.

(2) All actual costs made or incurred by MAM in connection with the uncompleted portion of the order plus normal profit of the total contract price as partial liquidated damages.

(3) Cancellation charges if any of MAM on account of its purchasing commitments made under the order.

(B) All Goods paid by Buyer hereunder shall be delivered to Buyer in their "as-is" condition at the date of such cancellation at the sole cost and expense of Buyer.

(C) Any modification, addendums or change orders to add or remove items from the purchase order that are requested later than 10 business days after MAM's acceptance of the purchase order is subject to a change order fee, related to re-engineering time, rework, and/or restocking, in MAM's sole discretion.

SHIPPING AND DELIVERY SCHEDULE:

(A) Subject to confirmation by factory at time of MAM acceptance of purchase order.

(B) Subject to unavoidable delays caused by Force Majeure, as defined herein.

(C) The terms of delivery are set in good faith and are approximate. All delivery times are estimates only and do not constitute commitments. Manufacture and/or delivery periods will not commence until written acceptance by MAM of the purchase order and MAM's receipt of any required initial deposit.

(D) Delays in delivery do not release the Buyer from its obligation to accept the delivery and does not give entitlement to claims for compensation by MAM, unless agreed otherwise by written acknowledgment. Buyer hereby agrees not to hold MAM liable for any compensatory, punitive, special, incidental or consequential damages, or any similar damages, whether foreseeable or not, arising from or relating to any delay in delivery and/or installation, including but not limited to: loss of profits, revenue or business opportunity; loss by reason of shutdown of facilities; loss because of inability to operate any machinery or facility at full capacity.

(E) In addition to the rights and remedies conferred upon MAM by law, MAM will not be required to proceed with the performance of any accepted purchase order if Buyer is in default in the performance of any order or contract with MAM and, in cases of doubt as to Buyer's financial responsibility, shipments under an order may be suspended or sent sight draft with bill of lading attached by MAM.

(F) Buyer is solely responsible for preparing its facilities for delivery and installation of the Goods, including but not limited to having suitable electrical service available, sufficient clearances for installation and positioning, and having capable load-bearing infrastructure.

INDEMNIFICATION:

(A) Buyer agrees to save MAM harmless and indemnify MAM from and against any and all claims, judgments, and expenses of defense arising from or relating to: non-compliance with the applicable electric code; non-operation or faulty operation of any Goods; personal injury, loss or damages, whether direct, indirect, special, or consequential, in any degree resulting from, or contributed to by, inadequate or deficient or excessive or inappropriate electrical power supply for the operation of any Goods, wherever located, inadequate or incorrect instruction of operating personnel in

the use of any Goods, and improper or incompetent operation thereof including but not limited to overloading, abuse thereof, improper or inadequate maintenance thereof, use of any Goods for purposes or on materials for which the same is not intended according to its specifications or to generally accepted trade standards, or alteration or modification of any kind to such Goods unless previously and specifically approved in writing by MAM.

(B) As used herein, "expenses of defense" shall include all reasonable defense expenses and costs including (but not limited to) counsel fees incurred by MAM. "Improper or incompetent operation" as referred to above shall include, but not be limited to, failure to follow manufacturer instructions, generally accepted trade practices, warnings and recommendations and failure to comply with applicable federal, state and local laws and regulations. Said indemnification and exoneration against claims and judgments shall include, but not be limited to, those resulting from any legal theory of strict liability and from any theory of breach of warranty of any kind. In addition, as used above, the terms "improper or inadequate maintenance" shall include, but not be limited to, improper or inadequate installation performed by Buyer.

(C) Buyer agrees not to hold MAM liable for compensatory, punitive, special, incidental or consequential damages, or any similar damages, whether foreseeable or not, arising from or relating to any product malfunction or failure, including but not limited to: loss of profits, revenue or business opportunity; loss by reason of shutdown of facilities; loss because of inability to operate any machinery or facility at full capacity; damage to materials processed using the purchased products.

(D) These indemnification provisions shall supersede any inconsistent provision(s) in any document involving Buyer's purchase unless specifically agreed to in writing executed by MAM.

WARRANTY:

The Goods that are the subject of this sale have been manufactured by others. MAM makes no warranties, express or implied, in connection with this sale and, without limiting the generality of the foregoing, hereby expressly EXCLUDES any and all warranties of MERCHANTABILITY and warranties of fitness for a particular purpose. The warranties available to Buyer are those extended by the manufacturer to MAM to the extent that they are in force and effect, which warranties are on file at the offices of MAM and shall be assigned by MAM without recourse at Buyer's request. Performance and production data, including accuracy, capacity and capability of Goods are estimates only and not guarantees since they are dependent upon varying future production factors and conditions not within MAM's control. No agent, employee or representative of MAM has any authority to bind MAM to any affirmation, representation or warranty concerning the Goods that are the subject of this quotation beyond that specifically included in the written quotation. MAM shall have no obligation to install or provide improvements or changes in design adapted by the manufacturer or MAM for similar goods subsequent to acceptance of Buyer's order. In the event this quotation relates to used machinery, it is hereby agreed that MAM makes no warranties, express or implied in connection with the sale and, without limiting the generality of the foregoing, MAM hereby expressly EXCLUDES any and all warranties of MERCHANTABILITY and warranties of fitness for a particular purpose and Buyer takes such goods sold hereby in an "as-is", "where-is" condition.

LIMITATION OF LIABILITY

MAM does not warrant against and shall not be held responsible for any economic loss, loss of production or materials, property damage, product liability, personal injury, or any other claim by Buyer, its agents, employees, insurance carriers, subrogates, successors, assigns, or third parties arising out of the purchase and/or use of the Goods, except as expressly provided herein. In no event shall MAM be responsible for loss of profits, indirect, special, exemplary, or consequential damages, whether or not Buyer was aware of the possibility of such damages. MAM's liability to Buyer under this agreement shall be limited to the actual amount paid by Buyer for the Goods involved and shall in no event exceed MAM's applicable insurance coverage. These limitations will apply even if the limited remedy in this section fails of its essential purpose.

COMPLIANCE WITH LAWS AND SAFETY REGULATIONS:

(A) The contract resulting from the acceptance of an order pursuant to this quotation shall be governed by and construed according to the law of the Commonwealth of Pennsylvania without reference to its conflict of law provisions.

(B) MAM makes no guarantees or representations express or implied, that the Goods are in compliance with OSHA. MAM does not guarantee or confirm, express or implied, that the installation or the use of the Goods complies with OSHA.

(C) It is also Buyer's sole responsibility to comply with all requirements or recommendations of Buyer, OSHA, and any other local, state, federal, or international safety or other treaties, statutes, laws or regulations as they may pertain to the sale, transport, alteration and/or operation or use of the Goods.

(D) It is the Buyer's sole responsibility to assure the safe use, maintenance, and operation of the Goods and of all options, safety equipment, and additions.

(E) Buyer agrees that its agents and employees, when operating the Goods, will comply with all operating procedures set forth in manufacturer operator manuals and instructions, and Buyer further agrees not to remove or modify any safety device, warning sign, operator manual, manufacturer instructions, or work handling tools. Buyer shall notify MAM promptly of any accident resulting from use of the Goods and agrees to cooperate with MAM in investigating and determining the cause of any such accident.

CONFIDENTIAL AND PROPRIETARY INFORMATION:

(A) Except to the extent that information is clearly in the public domain, all information provided by Buyer to MAM during the performance of the purchase order and all improvements, modifications and derivations thereto shall be deemed to be the proprietary information of Buyer. MAM agrees to hold Buyer's proprietary information in confidence and to protect it from release.

(B) The appearance of MAM and/or manufacturer logos on products does not constitute a license for Buyer to use them for any other purpose. Buyer shall not publish or reproduce any physical or digital materials supplied by MAM and/or any manufacturer without prior written consent of the appropriate party.

(C) Buyer shall adhere to any manufacturer terms and conditions and governing law pertaining to protection of its trade secrets, copyrights, and other intellectual property (collectively, "IP"), and Buyer shall not disassemble or deconstruct any of the Goods in any manner designed to infringe on manufacturer's IP rights without manufacturer's express approval.

OTHER TERMS

(A) Any limitations on liability set forth herein as to MAM, as well as commitments to indemnify and save MAM harmless, apply likewise for the benefit of its owners, agents, officers, employees, representatives, affiliates (subsidiaries and entities with common ownership), and assigns.

(B) Buyer agrees that jurisdiction and venue for any disputes arising from the accepted purchase order shall be mandatorily brought in the state or federal courts located in Dauphin County, Pennsylvania.

(C) MAM AND BUYER WAIVE THE RIGHT TO A TRIAL BY JURY IN ANY LAWSUIT ARISING OUT OF OR RELATING TO AN ACCEPTED PURCHASE ORDER.

(D) These Terms shall be construed without aid of any canon, custom or rule of law requiring construction against the drafter.

(E) A purchase order may not be assigned without MAM's express written consent.

(F) For purchases to be financed by MAM, these Terms shall be in addition to the applicable financing and security agreement.

(G) If any term in these Terms is determined to be unenforceable, Buyer agrees that such provision shall be severed from the Terms and that Buyer shall remain bound by the remaining provisions.

(H) The prevailing party in any suit to enforce these Terms as part of an accepted purchase order shall be entitled to recover its reasonable attorney fees and legal costs related thereto.
