

Vectis Cobot Welding Tool Quote

Config: UR10e Standard Reach, Fronius Push/Pull WC, XL cart 48"x 48"

Customer: SS Industries

Quote Number: JP100625A

Date: October 6, 2025

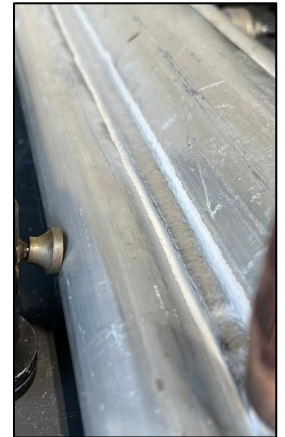

Thank you for considering the Vectis Cobot Welding Tool. Our mission is to help solve the skilled labor shortage by providing an affordable, versatile, & extremely easy-to-use tool you can leverage to boost productivity in your weld shop – for less cost, less risk, and less setup time than ever before. We appreciate the opportunity to review your applications with you to see if our product could be a good fit for your needs. Below you will find pricing and details on our system, with hyperlinks to more information [highlighted in blue](#). Please don't hesitate to reach out with any questions or concerns – we are here to **empower your success**.

Config Price: \$125,210

Additional options available on final pages.

Typical* Lead Time: 2-5 weeks

***Reach out to your Vectis representative for today's lead time for your configuration.**
Lead times can vary +/- from date of quote based on order intake, configuration, supplier lead times, and backlog at time-of-order – especially in Q4.
Based on your lead time & config needs, stock/demo systems may also be available.

**Proven track record: 700+ systems
successfully in production**

**HOW LIKELY ARE YOU TO
RECOMMEND VECTIS
AUTOMATION TO A FRIEND
OR COLLEAGUE?**

9.41/10

"We've run over 1 million welds on the Vectis. We bought a second as a backup because we've become so reliant on it – but the first one just won't break"

- Chris & Tracy Smith, Owners, Centerline Steel [\(link to video\)](#)

"We were cutting shrinkwrap in the morning & in production by the afternoon"

- Travis Jordan, Co-Owner of MT Solar [\(link to full video and case story\)](#)

"We increased throughput by 450% and eliminated post-weld grinding"

- Travis Hunsecker, COO, YB Welding & Fab [\(link to full video\)](#)

"20 years in industry, Vectis is the first system that worked 100% as advertised"

- Jeff McGuire, Operations Manager, Laser Precision [owner of 5 Vectis systems](#)

PROPOSAL DETAILS:

Financing Options with typical rates **starting at 6.75% APR** subject to credit approval and no changes in underlying rates.
Financing option offered in partnership with a third-party financing partner upon credit approval. Rates subject to change. Inquire for more info.

Shipping: Freight is **included in price**, system ships ground on an LTL carrier. (DAP Customer Facility, Incoterms 2020)
Lead time is a typical estimate, and dependent on supplier lead times at time of order. Measured from down payment to ship date.

30-day Return Policy: If purchased outright, this product **may be returned within 30 days** of delivery.
Details available in purchase T&Cs. Applicable to first system purchased by customer. Return policy not applicable to leases/rent-to-owns.

Rent-To-Own Options: 70% of rent paid is applied to buyout price. Buyout at any time; or return at end-of-term.
Typical monthly rates \$7k-\$12k for standard systems depending on term length (2-6mos). Monthly cost higher for other configs & options.
If interested, inquire with us for pricing and more information.

Two-Year Warranty: Full system is covered under a 2yr warranty.
Vectis is your "one throat to choke" and will coordinate with component mfrs if needed.
Depending on the case, warranty may be a self-fix, ship-to-Vectis, or (rarely) on-site.
Any modification to the system's integration voids warranty and return policy.

As-Quoted Payment Terms: 50% due with order, 50% due prior to shipment.

Terms & Conditions: This offer is governed by Vectis Terms and Conditions available at www.vectisautomation.com/terms-conditions.
Sales/Use taxes not included. Price valid for 30 days, unless force-majeure tariff changes cause additional input-cost increases.

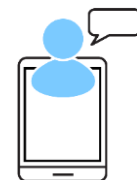

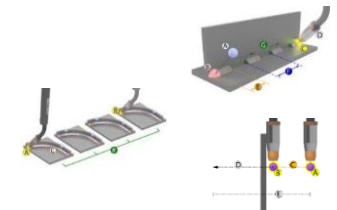

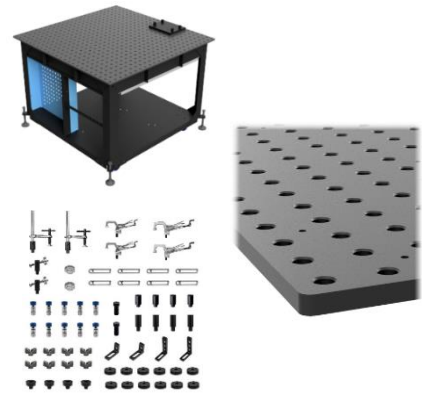

CONFIG PRICE ON Pg1 INCLUDES:

- Universal Robots **UR10e** Collaborative Robot ("Cobot")
 - 27.5lb [12.5kg] wrist payload. Six-axis servo controlled.
 - Input power: Single-phase 110VAC fused at 15A.
 - **Freedrive jog mode** allows the programmer to teach cobot by physically moving it to program points.
 - 51" [1300mm] reach from base to wrist. Reach with torch is ~68".
 - Embedded collaborative safety allows the cobot to **safely work alongside human operators**.
 - 17 safety functions, all EN ISO 13849-1, Cat.3, PL d. Full EN ISO 10218-1 compliance.
- **Fronius** TPS 400i w/ CMT-Ready Push-Pull MIG Package, Water Cooled
 - Includes:
 - TPS 400i Advanced Process MIG Welder.
 - WF 25i REEL 4R (push motor) with SB60i R SplitBox.
 - WF 60i Robacta Drive CMT-Ready (pull motor).
 - Note: 60i Robacta pull torch & hosepack only warrantied for 1yr.
 - MTB 500i Water Cooled Torch w/ CU1100i cooler.
 - Capable of welding aluminum in addition to steel, stainless, exotics.
 - Includes CV, Pulse, and SynchroPulse weld modes.
 - Hardware capability for PMC and CMT weld modes.
 - Note: CMT & PMC must be enabled via software, optioned separately.
 - Requires 3-phase power. Auto-taps to any input between 200-480V.
 - Rated output: 360A, 100% duty cycle. 430A, 60% duty cycle.
 - Includes Starter Consumable Kit: 30 tips, 3 nozzles, 1ea of all other consumables.

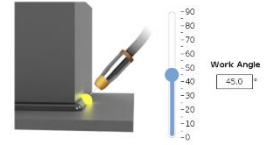

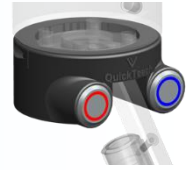

CONFIG PRICE ON PG1 INCLUDES:

- XL Cart - 48" x 48" Mobile Modular Table
 - Cobot electrically-isolating baseplate mounts directly to top surface.
 - System and all equipment fully packaged on mobile cart.
- Nitrided Grid-Top – 5/8" ∅ holes on 2" centers
 - Nitrided hardened top helps resist spatter buildup & wear.
 - Tabletop is reversible for extra-long life; holes are chamfered.
- 66pc Starter [Fixturing & Clamp Kit](#)
 - Fits all 5/8" hole systems.
 - Includes 8 clamps, 4 right-angles, 10 adj. ball-locks, and 44 datums.
- Vectis *Let's Weld Together*® Software Platform license
 - **No programming background needed.** [Make your first weld within 10 minutes after plug-in.](#)
 - Baseline weld template library for common weld sizes.
 - [Weaving capability](#) – set zig-zag or in-line whip weave parameters
 - **No annual "maintenance" charges.** Free updates for enhancements
- Vectis Premium Software Features license
 - [Stitch Welding](#): Teach a path, then set stitch length and spacing.
 - [Pattern Tool](#): Linearly or dynamically pattern any set of welds, tacks, and airmoves with just three quick inputs.
 - [Touch Sensing](#): Allows you to manage slight inconsistencies with a tactile search to offset programmed paths. Can also be used for part-present sensing.
 - Playlist: Operator can queue the day's work with our Playlist interface.
- Vectis Ready-To-Weld Integration Package
 - Assembly and functional testing of system at Vectis Automation facility.
 - DIY commissioning: [quick and easy self-setup saves you time & money.](#)
 - Four button op panel with 16.4ft [5m] cable.
 - All the "bits and pieces" to make a system easy-to-use out of the box.
- 2yr Warranty & World-Class [\(97% rating\)](#) Lifetime Technical Support:
 - Support@VectisAutomation.com 970-852-5200 x2
 - FaceTime/Teams video support along with typical texts/calls.
 - Remote support enabled by technology allows extremely fast response times.
- Unlimited lifetime access to the [Vectis Training Academy](#):
 - Online self-paced visual training modules allow your Cobot Champion to quickly & efficiently learn how to use the system.
 - Lifetime access for unlimited users at your company.
 - In-depth videos provide a permanent, reviewable way to learn content.
- Domestic shipment to you on an LTL carrier

- **Vectis QuickTeach™ Remote Programming Puck** *Included in Pg1 price*
 - Two multi-function programming buttons on low-profile ergonomic puck (removable).
 - Allows operator to teach welds and air-moves from the cobot wrist. Particularly useful for very-low-volume applications including one-off programming.
- **Vectis AI Path Optimization Toolset** *Included in Pg1 price*
 - Automatic AI detection & travel angle smoothing around corners & sharp transitions.
 - Operator can teach a rough path, then set & optimize work & travel angles with a single click.

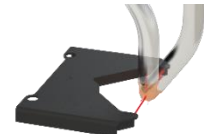

- **Vectis Clarity™ Data Insight Dashboard** **\$3,660** *New feature! Included free for orders placed before Nov. 15th, 2025*
 - On-system data capture & dashboard provides operational insights and helps Cobot Champions identify areas for program efficiency improvement
 - Metrics captured and displayed include:
 - Part production per type, displayed per day, week, and month
 - Total parts made per period
 - Cycle Time and Program Efficiency per part: arc time, idle time, airmove time
 - Data viewed on pendant screen (*Network connection not required; to cope with differing IT requirements. Data export via USB drive is available for external viewing and reformatting*)
 - Data can also be exported to .CSV file via thumb drive
 - Lifetime software license – no monthly subscription fees
 - *Note: Systems with Seam Tracking will receive an update with Clarity at a later date.*

SYSTEM OPTIONS: *Not Included in Config Price on Pg1. Can be added to system config at incremental prices below.*

- **Mega Consumables Kit:** **\$590**
 - Additional 100 tips, 10 gas nozzles, 3 liners, & 2ea of other consumables.
- **Vectis AutoTCP™ Automatic Tool Calibration:** **\$1,930**
 - Automatic tool center point (TCP) calibration – recommended if you expect multiple operators or want to remove a manual calibration process from operator's hands.
- **Status Light & Buzzer:** **\$770**
 - Integrated RGB color status light with buzzer & magnetic mount. Events & colors programmable via Vectis interface on pendant.

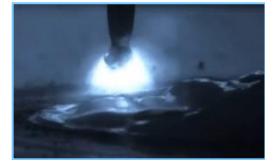

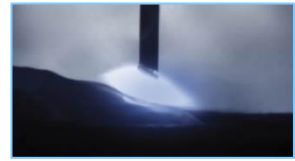

- **Upgrade to long-reach UR20 arm** **\$14,650**
 - Increases payload capacity to 20kg.
 - Adds ~18" of reach over UR10e, for an ~86" total reach radius w/ torch.
 - Key considerations:
 - *Pendant includes 3-position enable safety. Freedrive works same as UR10e.*
 - *12ft bundle included. 035 may have feedability challenges in certain positions.*
 - *Pinch point possible between vertical tube (J2) and a tall fixture on table – customer responsible for ensuring fixture design & placement does not create a pinch point.*
 - *Requires XL Cart for weaving stability and tipover safety stability.*

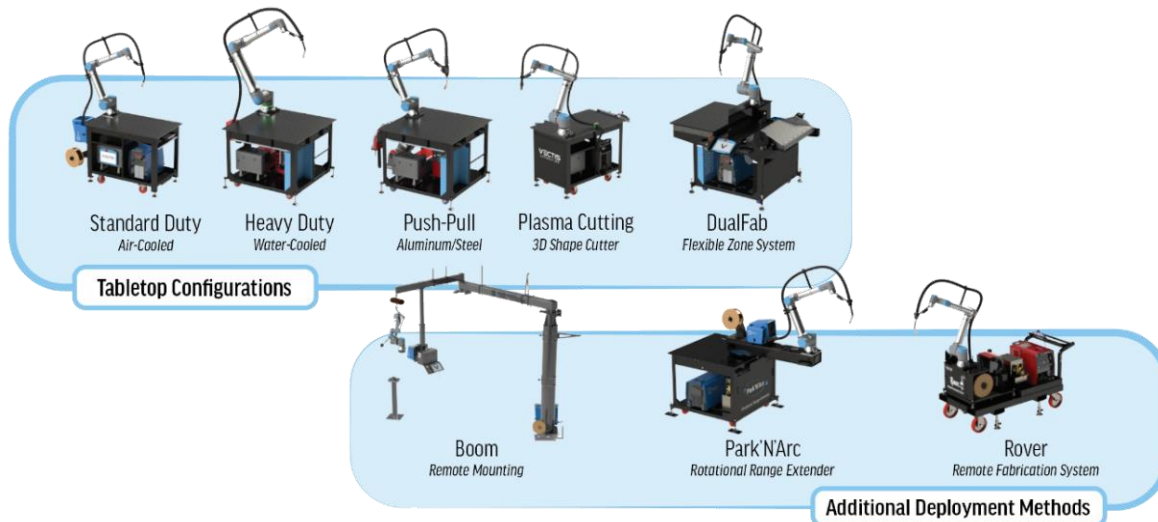

SYSTEM OPTIONS: *Not Included in Config Price on Pg1. Can be added to system config at incremental prices below.*

- Add Fronius' Cold Metal Transfer (CMT) process **\$5,990**
 - Patented modified short-arc weld transfer process actively retracts the wire to reduce heat input and spatter. Particularly useful for thin materials.
 - Note, this option can be easily added in the future via a separate purchase, if found to be necessary for your application.
- Add Fronius' Pulse Multi Control (PMC) process **\$1,460**
 - Proprietary Fronius advanced pulse process allowing for precise control of heat input, high deposition rates, and consistent penetration.
 - Note, this option can be easily added in the future via a separate purchase, if found to be necessary for your application.

Other [Processes](#) & [Deployment Methods](#) are available – contact us to discuss:

Welder options, deployment options, aluminum push-pull packages, plasma cutting systems, and other unique needs.

Please reach out with any questions or concerns. We are always here to help - **your success is our #1 priority.**
