RE: Vectis Automation / Welder (Robot) Vectis Cut Rover (SN 00716)

Dear John,

Thank you for the opportunity to provide you with this sales quote. We appreciate your interest in Mid Atlantic Machinery, Inc. and look forward to supporting your metal fabrication needs.

Enclosed, you'll find the pricing and specifications for the recommended equipment. Please also review the Terms and Conditions of Sale for key details regarding your purchase.

If you have any questions, need modifications, or would like to explore additional options, please don't hesitate to reach out. I'm happy to assist in any way to ensure you have the best solution for your business.

At Mid Atlantic Machinery, we're committed to providing high-quality equipment and exceptional service. We look forward to a continuing partnership with your company and helping you achieve your production goals.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Barsanti".

Vectis Cobot Cutting Tool Quote – SN00716 Cut Rover Fabtech Demo System

Config: UR10e Standard Reach, PowerMax 125 air plasma, Rover™ Ultraportable Remote-Deployment

Quote Number: JP081525A-716FTDemo

Date: August 15, 2025

Thank you for considering the Vectis Cobot Cutting Tool. Our mission is to help solve the skilled fabricator shortage by providing an affordable, versatile, & extremely easy-to-use tool you can leverage to boost productivity in your fab shop – for less cost, less risk, and less setup time than ever before. We appreciate the opportunity to review your applications with you to see if our product could be a good fit for your needs. Below you will find pricing and details on our system, with hyperlinks to more information [highlighted in blue](#). Please don't hesitate to reach out with any questions or concerns – we are here to **empower your success**.

New Build Config Price: \$108,700

Standard price for configuration shown (UR10e Standard Reach, Rover Cart + Cutting Skid, PowerMax 125 Air Plasma, AutoTCP)

SN00716 Demo Price: \$100,000

\$8,700 discount offered on SN00716 demo system. Options on final pages. System will be lightly used for programming-only demos at Fabtech. Maintains full 2-yr warranty & support.

SN00716 Availability: Mid/Late Sept.

Demo systems available first-come, first-serve based on PO date. Expected availability 1-2wks after conclusion of Fabtech show.

Proven track record: 700+ systems successfully in production

HOW LIKELY ARE YOU TO RECOMMEND VECTIS AUTOMATION TO A FRIEND OR COLLEAGUE?

9.41/10

“The Vectis cutting system is **out of this world. The guys are loving it. They’re able to do 3-4 days of work now in one shift with greater precision & quality”**

- Tyson, Cobot Champion, Heavy Equipment Manufacturer

“We used to outsource these dome cuts but costs & lead time continued to grow. With the Vectis cutter, we **control our own destiny and are courting additional customers with our new capability”**

- David Bracken, President, ITMT ([link to video](#))

“The Vectis has been a **Godsend. We cut structural shapes with it **every day**.”**

- Rich Smith, Owner, Ackerman & Baynes. ([link to video](#))

PROPOSAL DETAILS:

Financing Options with typical rates **starting at 6.75% APR** subject to credit approval and no changes in underlying rates.
Financing option offered in partnership with a third-party financing partner upon credit approval. Rates subject to change. Inquire for more info.

Shipping: Freight is **included in price**, system ships ground on an LTL carrier. (DAP Customer Facility, Incoterms 2020)
Lead time is a typical estimate, and dependent on supplier lead times at time of order. Measured from down payment to ship date.

30-day Return Policy: If purchased outright, this product **may be returned within 30 days** of delivery.
Details available in purchase T&Cs. Applicable to first system purchased by customer. Return policy not applicable to leases/rent-to-owns.

Two-Year Warranty: Full system is covered under a 2yr warranty.
Vectis is your “one throat to choke” and will coordinate with component mfrs if needed.
Depending on the case, warranty may be a self-fix, ship-to-Vectis, or (rarely) on-site.
Any modification to the system’s integration voids warranty and return policy.

As-Quoted Payment Terms: 50% due with order, 50% due prior to shipment.

Terms & Conditions: This offer is governed by Vectis Terms and Conditions available at www.vectisautomation.com/terms-conditions.
Sales/Use taxes not included. Price valid for 30 days, unless force-majeure tariff changes cause additional input-cost increases.

CONFIG PRICE ON PG1 INCLUDES:

- Universal Robots [UR10e](#) Collaborative Robot (“Cobot”)
 - 27.5lb [12.5kg] wrist payload. Six-axis servo controlled.
 - Input power: Single-phase 110VAC fused at 15A.
 - **Freedrive jog mode** allows the programmer to teach cobot by physically moving it to program points.
 - 51” [1300mm] reach from base to wrist. Reach with torch is ~68”.
 - Embedded collaborative safety allows the cobot to **safely work alongside human operators**.
 - 17 safety functions, all EN ISO 13849-1,Cat.3, PL d. Full EN ISO 10218-1 compliance.
- Hypertherm PowerMax 125 Air Plasma System w/ Hyamp Robotic Torch and Vectis Controls Package
 - Includes Duramax Hyamp robotic cutting torch with bracket, Freedrive integration, and robotic teach pointer
 - 1” rated max pierce (*exact pierce capability depends on material & pierce angle*)
 - 1.5” rated max cut capacity (*exact max cut capacity depends on material and cut needs*)
 - All controls components & cables for seamless control of the Hypertherm power supply via the cobot pendant (amperage, on/off, etc)
 - Requires 480V 3-Phase power. Input amperage at max cut capacity is 31A
 - Rated output: 125A at 100% duty cycle
 - Includes “last resort” oil filter, but requires clean, dry, oil-free air input of 550 scfh flow at 85psi
 - Includes Hypertherm starter consumables kit

CONFIG PRICE ON Pg1 INCLUDES:

- Vectis Rover™ Ultraportable Cutting Skid
 - Skid can be lifted by crane and/or forklift onto various surfaces.
 - Compact footprint of 28" x 28". Self-counterbalanced.
 - Cobot electrically-isolating baseplate mounts directly to top surface.
 - All equipment fully packaged on skid.
 - Includes heavy-duty wheeled cart. Can cut from cart or off-cart.

- Vectis *Let's Cut Together*® Software license
 - **No programming background needed.**
 - Generate cut paths via point-to-point teach; or use our Shape Tool to create rectangles, circles, and slots via dimensional inputs and an origin point.
 - Once a nominal cut path is created, the Vectis software applies tool position & orientation offsets to properly cut based on operator inputs of bevel angle, kerf compensation, & cut height.
 - Pattern tool allows you to "copy and paste" desired cuts in a direction for a user-defined number of iterations.
 - **No annual "maintenance" charges.** You receive software updates for existing features at no cost to you.
 - *Note: Major feature additions, especially if they include hardware, may require a one-time future purchase but will not have maintenance charges*

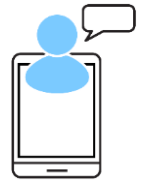

- Domestic shipment to you on an LTL carrier

- 2yr Warranty & World-Class [\(97% rating\)](#) Lifetime Technical Support:

- Support@VectisAutomation.com 970-852-5200 x2
- FaceTime/Zoom video support along with typical texts/calls
- Remote support enabled by technology allows extremely fast response times.

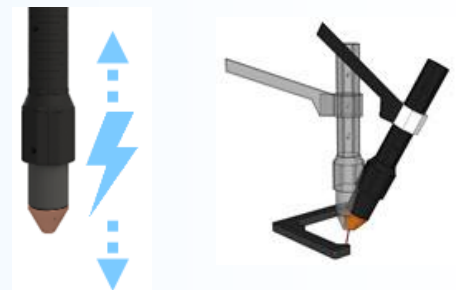

- Vectis Ready-To-Cut Integration Package

- Isotherm RoboSuit protective covering for full arm
- Assembly and functional testing of system at Vectis Automation facility.
- DIY commissioning with [Vectis Training Academy](#): quick and easy self-setup saves you time & money
- Four button op panel with 16.4ft [5m] cable

No-Cost Key Features

- Vectis [AutoTCP](#) Tool Calibration
 - Calibrates the location of the cut torch relative to the cobot, compensating for both XYZ offset and tool orientation
- Vectis Voltage Height Control
 - Monitors voltage of arc and adapts the taught cobot path's height to help manage slight production inconsistencies from part-to-part.

• Vectis Clarity™ Data Insight Dashboard ~~\$3,660~~

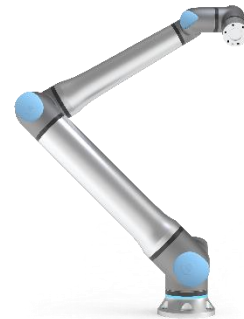

New feature! Included free for orders placed before Sept. 1st, 2025

- On-system data capture & dashboard provides operational insights and helps Cobot Champions identify areas for program efficiency improvement
- Metrics captured and displayed include:
 - Part production per type, displayed per day, week, and month
 - Total parts made per period
 - Cycle Time and Program Efficiency per part: arc time, idle time, airmove time
- Data viewed on pendant screen (Network connection not required; to cope with differing IT requirements. Data export via USB drive is available for external viewing and reformatting)
- Data can also be exported to .CSV file via thumb drive
- Lifetime software license – no monthly subscription fees

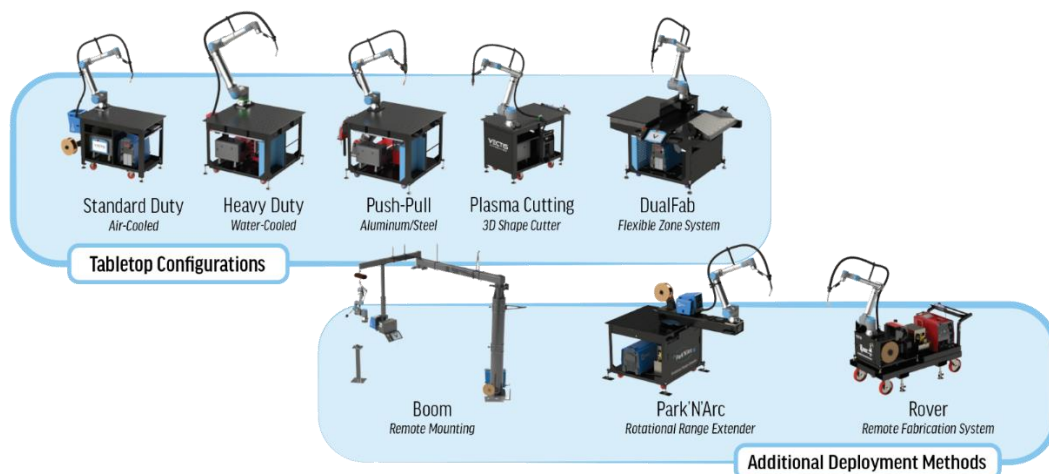

SYSTEM OPTIONS: *Not Included in Config Price on Pg1. Can be added to system config at incremental prices below.*

- Upgrade to long-reach [UR20 arm](#) **\$14,650**
 - **Requires Park'N'Arc or Cutting Skid option**
 - Increases payload capacity to 20kg.
 - Adds ~18" of reach over UR10e, for an ~86" total reach radius w/ torch.
 - Key considerations:
 - Pendant includes 3-position enable safety. Freedrive works same as UR10e.
 - Pinch point possible between vertical tube (J2) and a tall fixture on table – customer responsible for ensuring fixture design & placement does not create a pinch point.

Other [Processes](#) & [Deployment Methods](#) are available – contact us to discuss:

Welder options, deployment options, aluminum push-pull packages, plasma cutting systems, and other unique needs.

Please reach out with any questions or concerns. We are always here to help - **your success is our #1 priority.**
